

# Simulation based control for Energy Efficiency operation and maintenance

Dear reader,

We are pleased to present you with the 3<sup>rd</sup> edition of the Energy IN TIME newsletter, bringing you the latest news and developments in the project and the field of building energy efficiency. This edition features a review of project progress and collaborations with other European projects, news on our latest project meeting, a link to our “Meet the Energy IN TIME partners” video interviews and an article on one of latest project developments. We are sending you this newsletter due to your existing connection with the project or one of its partners. If at any time you wish to unsubscribe, please use the link at the bottom of this and every issue.

Regards, the Energy IN TIME consortium members

## Successful completion of the 1st Reporting Period

Energy IN TIME completed its 18 month reporting period in March this year and gathered at the EC headquarters in Brussels on the 19th of March to present the results at the 1st period review meeting. The official review of the Commission was that Energy IN TIME is on schedule, making good progress, and well in its way to reaching all the set objectives.

## New collaborations

The 5th edition of the EeB PPP Workshop was held in Brussels on the 27th and 28th of April this year,

and Energy IN TIME was there to take part in the proceedings. The event brought together representatives from a total of 96 projects in the field of energy efficiency, which provided the

perfect opportunity for networking and fostering new collaborations.

## 3rd Steering Committee meeting in Bucharest

The 3rd Energy IN TIME Steering Committee meeting was held at

Romanian partner ICPE's headquarters in Bucharest on the 20th and 21st of May. The building where the meeting was held is one of four demo sites of the Energy IN TIME project, bringing to a total of three the demo sites that have been visited by the consortium to coincide with project meetings.

## Partner Interviews

At our recent project meeting in Bucharest, the Energy IN TIME partners managed to take time out from the packed schedule to tell us a bit more about themselves and their involvement in the project. The "Meet the Energy IN TIME partners" video interview series is available on our Youtube channel or via the project website and social media sites. Happy viewing!

## Upcoming events

Energy IN TIME will be back in full force after the summer break, with a series of events and meetings scheduled for the fall. First up will be Sustainable Places 2015, which will be held in Savona, Italy, from the 16<sup>th</sup> to the 18<sup>th</sup> of September. In October the consortium will meet

up again for their 4<sup>th</sup> General Assembly and Steering Committee meeting in Barcelona, Spain. Keep an eye out too for details of our upcoming workshop, dates and location to be published shortly.
