

Public Presentation of the Energy in Time Project in Faro, Portugal, on September, 26th

ABOUT THE PROJECT

Energy IN TIME is a Large-scale integrating project within the 7th Framework Programme FP7-NMP, Sub-programme EeB.NMP.2013-4, which brings together a total of 13 partners from 8 different European countries.

The aim of the project is to develop a Smart Energy Simulation Based Control method which will reduce the energy consumption in the operational stage of existing non-residential buildings.
